Unlocking your motivational DNA

The nTelligence mission is to assist individuals and businesses around the world achieve their peak performance by tapping into insights and foresights that improve their engagement and as a result improve their achievements.

For more information visit: www.ntelligence.com.au

Unlock the motivational puzzle

- Do you have a deep understanding of what makes you and your team tick and how to perform at your best?
- Do you know what you and your teams natural needs, talents and vulnerabilities are that don't change over time?
- Have you ever explored how to re-craft your conversations with your boss, peers, team and family to motivate them to perform at their best?

To influence people you must understand them...

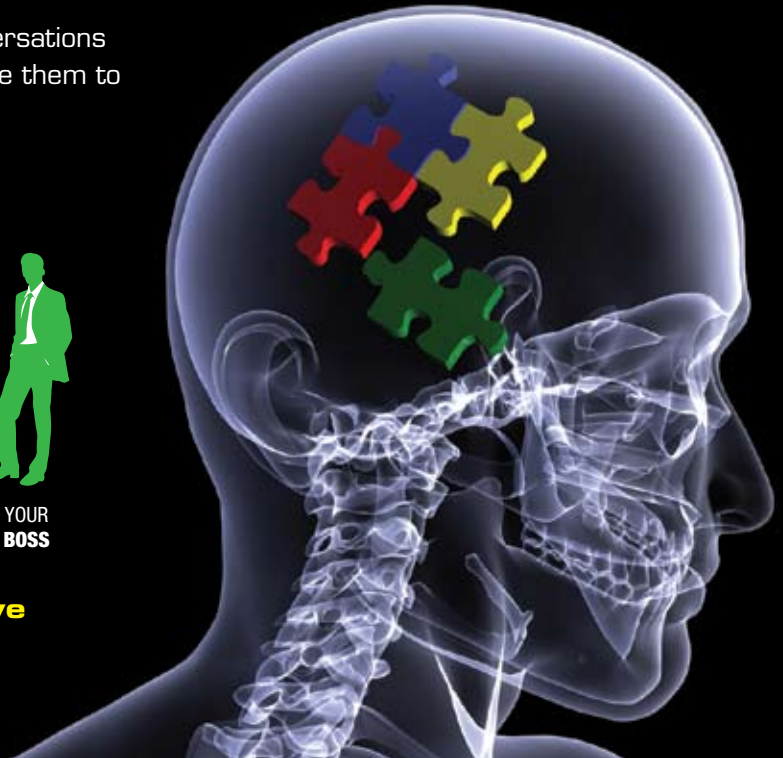

...and nTelligence can help you achieve greater team engagement, retention and effectiveness.

"I have not seen anything get so quickly to the core of what makes someone tick"

Anneke Fitzgerald

University of Western Sydney

What we do

nTelligence uses the internationally recognised **Instinctive Drive System™ (“I.D.”)** to provide the following service offerings:

- Ongoing personal consultation
- Facilitated team building
- Team development workshops
- Team identity, strategy and mission formulation
- Team coaching & mentoring
- Business process tools that operationalise the effectiveness of using “I.D.”

Find your instinctive drive

Your Instinctive Drives™ or **I.D.™** is the essence of who you are and it’s why you do the things you do. It’s your own unique “motivational DNA” you were born with that never changes, and by being aware of it and sharing it with your friends, family and business colleagues, you will improve your engagement and achievements extensively.

MOST PROFILES TEACH YOU THIS

The light bulb represents the things in life that are **LEARNED**.

Values and Beliefs.
Experiences.
Family.
Confidence and Self Esteem.
Skills and Knowledge.
Behaviours & Attitude.

They are the **“NURTURE”** aspect of your personality.

THE I.D SYSTEM TEACHES YOU THIS

The inner workings represent your **INNATE** human needs.

Be true to yourself.
Love and be loved.
Make a difference.
Grow and learn.
Belong and be accepted.
Be safe and healthy.

This is the **“NATURE”** aspect of your personality.

Unlock your motivational DNA

I.D is not a tool about your personality, behaviour or actions. Rather, it is a diagnostic motivational tool which defines the (often sub-conscious) drive or motivation behind everything you think, say and do.

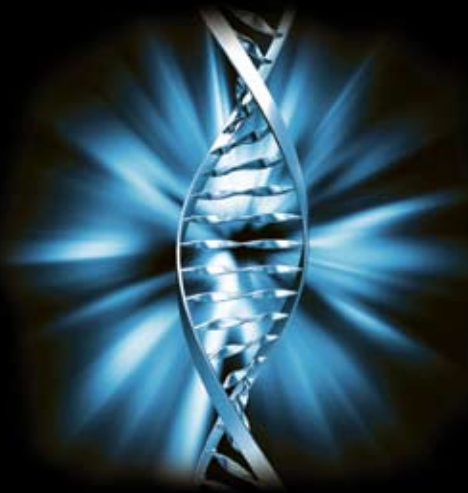

■ **I.D** is your mental motivational “DNA” that you were born with and that never changes.

By using **I.D** we can tell you what you **NEED**, to be able to act, to feel fulfilled, to make decisions, what your natural inbuilt **TALENTS** are and where your **VULNERABILITIES** or blind spots lie.

Who is using the I.D system?

These are just a small sample of organisations who are enjoying the benefits of the **Instinctive Drive System™ (“I.D”)**

- | | | |
|-----------------|-------------------|--------------------|
| ■ Cisco Systems | ■ Hewlett Packard | ■ Sun Microsystems |
| ■ Teradata | ■ IBM | ■ American Express |
| ■ NRMA | ■ Macquarie Bank | ■ Woolworths |
| ■ Coca-Cola | ■ Diageo | ■ Astra Zeneca |
| ■ Coles Myer | ■ Peugeot | ■ Deloitte |

“I have used the I.D system both professionally and personally and it has brought self-realisation to the team resulting in a big impact on our productivity”

Jim Hassell
Sun Microsystems Inc.

Join the journey to success
